

How FiSH compares

FiSH, by Prodeo Capital, next to the main alternatives for small and medium businesses.

	FiSH	Global tools (QuickBooks, Xero, Sage, Zoho)	Spreadsheets / paper books
Built for	Small and medium businesses, from scratch	Everyone, from freelancers to large firms	Whoever set it up
Region	Designed for Sierra Leone, Liberia, Guinea, Côte d'Ivoire	Mainly US, UK, Europe, Australia	Anywhere
Local fit	Local currencies, tax rules, and payment habits built in	Often needs workarounds or add-ons	Manual
Business numbers	Live KPIs, updated as you work	Reports mostly at month end; dashboards vary	Only when you calculate them
Day-to-day detail	Tracks stock, staff, and operations, not just money	Focused on accounting; extras cost more	Depends on you
Support	A business partner, not just a help desk	Online help, call centres, or a local accountant	None
Ownership	Prodeo owns and controls the engine	Licensed from a vendor	You
What else it powers	Also runs Purse credit union and agrifinance lending	Accounting only	Nothing

Draft for review. Confirm the "Local fit" and "Day-to-day detail" rows against current FiSH capabilities before publishing.
